- **Public and Member comments For Issues on The Agenda** - None
- **HMIS Common Assessment Committee** - P. Ruddick  
The conversation revolved around the goals of that group, possibly renaming that group as a different committee, a lot of ideas were presented about what could be done with that committee. P. Ruddick is going to put together a structured agenda for that group. No action was taken out of that committee.

- **Program Performance & Evaluation Committee-P. Ruddick**

The committee met 02/16/22 via zoom. The committee heard a presentation from Bluegrass Care Navigators about their Medical Respite Program, Community Action Council about Emergency Family Housing and the Hope Center's shelter for homeless Men. Each presentation included the number of clients served and the statistics on the outcomes such as percentages for how many clients exited to permanent housing, they also discussed challenges they faced within the last year. The next meeting is April 20, 2022 at 1:30. Starting April 15 meetings will not be in zoom so the next meeting for this committee will be in person.

P. Ruddick presented the committee selection for the RFP Racial and Equity Analysis. The selection committee received 2 proposals. The proposer selected was the lowest bid as well as the most qualified.

## 2022 LexCount Official Results

The LexCount is an annual event that takes place on the last Wednesday of each January. Wherein volunteers and service providers physically count and engage all individuals, including children, who are experiencing literal homelessness. Literal homelessness is defined as sleeping in a place not meant for human habitation, an emergency shelter operated/paid for by an organization, or a transitional housing program dedicated to those experiencing homelessness.

Lexington has conducted this count every year since 2005. The count this year took place on February 23, 2022 due to the high levels of COVID-19 community spread occurring in January.

**\*2021's data does not reflect an unsheltered count and therefore is not a comparable year.**

### Persons Experiencing Homelessness

➤ Overall results show a small, 3.44% increase (n=715) from the last full count in 2020.

- ❖ 20% are households with children (n=148). The total number of households has doubled since 2020.
- ❖ Single adult individuals are at their lowest level ever (n=567). (Excluding, 2021)
  - Within single individuals, those 50 and over are the fastest growing population with an 18.2% increase since 2020.

➤ Results show an increase, 48% from the last full count in 2020.

(National trends are showing a 20% increase)

- ❖ No households with children were found to be chronically homeless.
- ❖ We know that individuals are experiencing homelessness longer due to restrictions of COVID-19, skeleton case management staff, lack of permanent supportive housing vouchers, lack of employment opportunities during the pandemic, tight rental market and skyrocketing rental prices.
- ❖ Most likely to be individuals engaged in the downtown area.

➤ Current estimates are \$2,500,000/year for the next 3 years to end chronic homelessness in Fayette County.

### Persons Experiencing Chronic Homelessness

## Youth Experience Homelessness (18-24)

➤ 4% of those experiencing homelessness on any given night are youth ages 18-24. 45% increase from the last full count in 2020.

*(National trend is about 8% of the total population)*

- ❖ The CoC added an additional 14 emergency shelters beds dedicated for youth in 2021. No youth were found unsheltered.
- ❖ Kentucky is still seeing an increases in youth transitioning out of foster care at age 18. The CoC has recruited a new member, Life Set, to work with our youth on independent living skills, including housing. Life Set is contracted with DCBS to provide these service until the age of 23.

➤ Current estimates are \$7,800,000/year for the next 3 years to end youth homelessness in Fayette County.

➤ 8.53% of those experiencing homelessness on any given night are veterans. 33% decrease from the last full count in 2020.

*(National trend is about 8% of the total population)*

- ❖ 1 family in emergency shelter
- ❖ 1 veteran found unsheltered
- ❖ 28 veterans in emergency shelter
- ❖ 30 veterans in transitional housing, service intensive
- ❖ The CoC continues to monitor performance and stay in compliance with benchmarks set forth for the designation of effectively ending veteran homelessness.

## Veterans Experiencing Homelessness

## Emergency Shelter and Transitional Housing Inventory Availability

Both the number of persons experiencing homelessness on any given night and bed capacity have remained relatively consistent since 2018. *Stimulus funds were used to keep capacity at normal or even higher rates during the pandemic.*

This would indicate:

- ❖ Funders should prioritize increasing the inventory of permanent supportive housing vouchers rather than emergency shelter and transitional housing beds to reduce homelessness.
- ❖ Funders should examine current shelter beds options to realize if they are meeting the needs of those unsheltered prior to additional increased funding.

## Continuum of Care Program Competition Debriefing

**FY 2021**

**CoC: KY-502 - Lexington-Fayette County CoC**

This document summarizes the scores HUD awarded to the Continuum of Care (CoC) Application your CoC submitted during the Fiscal Year (FY) 2021 CoC Program Competition and is divided into three sections:

1. **High Priority CoC Application Questions;**
2. **CoC Scoring Summary**—on the five sections of the application; and
3. **Overall Scores for all CoCs**—including highest and lowest scores.

We organized sections 1 and 2 like the CoC Application. We included FY 2021 CoC Program Notice of Funding Opportunity (NOFO) references in the CoC Application so that you could reference the question to the NOFO, where applicable.

Highest Score for any CoC	168.25
Lowest Score for any CoC	60.25
Median Score for all CoCs	143
Weighted Mean Score** for all CoCs	155.5

\*\*The weighted mean score is the mean CoC score weighted by Annual Renewal Demand. CoCs that scored higher than the weighted mean score were more likely to gain funding relative to their Annual Renewal Demand, while CoCs that scored lower than the weighted mean were more likely to lose money relative to their Annual Renewal Demand.

## Continuum of Care (CoC) Program Competition Debriefing–DV Bonus Scores

**Fiscal Year (FY) 2021**

**CoC: KY-502 - Lexington-Fayette County CoC**

**Applicant: Community Action Council for Lexington-Fayette, Bourbon, Harrison, and Nicholas Counties**

**Project: Housing Navigation and Intensive Case Management DV Expansion**

Below is your DV Bonus project application score for the FY 2021 Continuum of Care (CoC) Program Competition. To receive DV Bonus funding, your application needed a score of at least **84.4**, which is the lowest score of any new DV Bonus project we funded. If your DV Bonus application did not score high enough for us to conditionally award DV Bonus funding to your proposed project, we could have still conditionally awarded funding based on (1) where your CoC ranked your project, and (2) if your project met project eligibility requirements.
